ABAV Priorities

Based on the Our School Data, Arundel Elementary will continue focusing on decreasing the percentage of students' feeling bullied as the goal is to achieve the Canadian norm.

We will continue focusing on the anxiety level to get back below the norms.

Please note that because of the small number of students who answered the survey (grade 4: 14 grade 5: 10 grade 6: 13), the results may not be accurate and representative of the entire school population. One student can make a 3% difference.
